Hemmings & Howard 8 p.m. 11/30/68

Haven't seen Hall in some time. Good talking about him, Dale & Howard's home. Never got any Mss to Rec'd FJR for #50, M.

Something up w Haiti and Virginia. LH offered to GPH, who had a long phone conversation on this. He made no effort to hide - did not know how close Dan & O could not know. O was not really interested nor wanted with LH. They felt Dan's Mss was an Evening Jet. Read they had some plans for it (Haiti) LH has a jaundiced view - refuses one dollar with another. He

2) noted as through J H in 1st.

J H will see Senator Ross
Wed. Doesn't think he pro
Lubin major, says he's keeping
in W D only that while.

Seems to have known Lyrie
O die in Lubs. Some of his
description is indefinite but
consistent somewhat, some in-
consistent. Wants to see Lu
picture

J. H ran with Bogg
Memo from 11/22/63
Odum 1, Ex 23 = Hendricks

J H wife stayed upstairs, never
saw Lee. Can't more minutes
later & he repeatedly asked Lu
to close door. Two little girls, pre-

3 Chaps 5, 6 & 7-8 Sat at top of steps after a while. When he left they had come down a few steps.

When I asked about a B Pip Canadian vet, J. H. remembered only said "Douglas". I asked last name: "Nixon" I said "Lethbridge", he relaxed. Thinks Douglas Ken had psychological problems. Not high officer, always had "two sides" up front kept him.

Knew he has company. One of D's problems was talking to LIFE. Says he has

4/ with company several times.
His group was mer-
cenaries who love the bats
CIA. When CIA funds ended
up, those men returned to
mercenaries. In order to
able to, they kept "in depen-
dents" informed of what they
learned from Company.

I'd say Bern not CIA,
not DIA, in UN at his own
request because he can make
more than he "#11,000"
gets from DoS, to conceal
use of his publishing business,
which does run in his absence

5) Courtney WQAM visited me for real. A lot of talks with my & help less make, less & have been good to J.H. & disappeared. There seems to have been an "Oswald" all. This is one of the points on which Rep esp J.H. worked, offered nothing, make vast suspicions.

J.H. has in his name not for Dir Hoover & O's. Days just by a no CIA people in Formosa during R & R Time for Japan.

7) Days Vo Observe temporary, less high Mean Temp.
